

CREATING SAFER,
MORE PRODUCTIVE WORKSITES

Actio PRO

Powered with VERTIX™ technology, **Actio PRO** is the second generation of wireless noise-cancelling radios built for those who are on the jobsite day in and day out—serious support for cutting background noise and creating safer, more effective workplaces. Actio PRO is packed with features like increased range, extended battery life, additional users, and more!

Actio PRO is specifically designed to kill background noise on heavy-industry job sites, including road construction, arbor work, line maintenance and electrical work, disaster relief, search and rescue operations!

SPEAK/EASY
communication solutions

Actio PRO

WHO'S IT FOR?

- Road Construction
- Road Surface Marking
- Traffic Control & Flagging
- Engine Rooms
- Line Maintenance
- Electrical Workers
- Any place that's noisy and communication is CRITICAL
- Any place where DISTANCE makes communication difficult

Unlike walkie talkies, Speak Easy's system uses frequency hopping technology to greatly minimize channel interference while communicating critical information.
